

Click! Network: Setting a new standard for business connectivity

Designed For Growth

Designed For Reliability

Designed For Choice

Click! Network gives businesses a choice of telecommunications providers and a selection of products to support business growth and expansion. Click! Network is a state-of-the-art network designed to be reliable and flexible.

Our carrier-grade network is SONET-based with a redundant, fiber architecture. We also support a robust Metro Ethernet Network. The network extends throughout Tacoma, Fircrest, University Place, parts of Lakewood, Fife and other parts of Tacoma Power's service area.

SONET Based Line Services

DS-1, DS-3 up to OC-192

Metro Ethernet Services

10/100/1000 Mbps
